

## **ELECTRONIC & SERVICE TECHNICIANS**

Air Techniques International (ATI), a division of Hamilton Associates, Inc., is the leading designer and manufacturer of specialized test equipment for HEPA and ULPA filters, flat sheet media, filter cartridges and respirators used by virtually all government, military and commercial organizations worldwide. As ATI continues to grow, we are seeking experienced **Electronic/Service Technicians** to support our continuing growth in the market. For additional information about our Company and our product lines, please visit our websites at [www.hamiltonassoc.com](http://www.hamiltonassoc.com), and [www.atitest.com](http://www.atitest.com).

### **POSITION OVERVIEW**

As an Electronic or Service Technician, this individual will be responsible for the assembly, repair, calibration, troubleshooting and testing of our instrumentation equipment in our Lean manufacturing environment. Responsibilities include:

- Assemble, calibrate, repair, test and troubleshoot electro-mechanical instrumentation equipment. May also assemble equipment and/or prototype units for Engineering. Assembly includes all electronic sub-assemblies to the finished-product stage.
- Ensure finished products adhere to quality specifications.
- Use computer systems to enter data in order to close work orders and/or complete calibration certificates.
- Monitor required inventory levels and notify Inventory Control of inventory shortages.
- Inspect incoming materials for accuracy and quality.
- Provide back-up for packaging and preparing finished products for shipment.
- Provide back-up assistance for customers' service inquiries or problems.
- Operate in accordance with ISO procedures and Lean Manufacturing processes.

### **JOB QUALIFICATIONS & REQUIREMENTS**

- Minimum High School Diploma or equivalent; additional education and training in electronics preferred
- 3+ years of electronics training or experience, preferably in an electronics-based, lean manufacturing environment
- Experience in pneumatic systems, pressure & flow monitoring equipment, aeronautics and HVAC preferred

- Ability to read and interpret work instructions, schematics and wiring diagrams
- Advanced troubleshooting skills
- Intermediate soldering skills
- Intermediate computer skills
- Basic Microsoft Office skills (Word, Excel, Outlook)
- Ability to lift, carry, push, pull, or move objects of up to 35 lbs. as required throughout the work day; physical activity includes frequent bending, reaching, standing, and walking
- Demonstrated passion for Lean / Continuous Improvement or the desire to learn Lean
- Military veterans with avionics or electronics training a plus!

### **COMPENSATION & BENEFITS**

In addition to offering competitive pay, we also provide a comprehensive benefits program including health insurance, 401(k) plan with matching and profit sharing, generous paid time-off (PTO) policy, life and disability coverage, plus much more!

### **CONTACT US**

If you are seeking a challenging opportunity to become an integral part of a collaborative production and service team in a strong organization poised for growth, you are encouraged to submit your resume, in WORD or PDF format, along with your salary history and requirements, to us for immediate consideration.
